Hello to all,

*Archief Philip Staal*

I just finished a talk with Philip and wanted to give you all an update:

As known, on July 9th our ad in the papers was published. As I discovered today, on July 30th - our ad at Rashumot was published. This means that (unless I'll get "tvi'ot" from the Amuta in my office by August 20th, we can proceed with the rest of the procedure to close it down.

**That** means I'll have to make a report as the Mefareket, you'll have to approve it (I'll send it to you by e-mail), we'll get together in my office and sign the final protocol of the Amuta, you'll need to bring the accountant's report for 2006-2007 (I have only report until August 2006, so we'll need a new one, quite similar to the one we have) and you'll need to transfer the rest of the money of the Amuta (as well as other assets, if there are any - if not, the accountant needs to write it in his report) to another Amuta with similar purposes as yours.

I suggest, **Zvi** (Philip said to ask you) that you'll send me (as soon as you can) details of the Amuta that gets the money (name, number, a certificate that it exists and takanon that tells it's purposes).

Ok. That's it for now. We'll be in touch soon.
